CAMOUFLAGE

suspension / ceiling / applique

The lamps of the Camouflage collection are composed of a metal "cage" structure, which supports the decorative screens and the lighting fixture. They are widely customizable, thanks to the possibility of combining the standard elements as desired, as well as requesting alternative finishes and dimensions. The decorative screens are available in six variations between metal and glass. The GU10 spotlights are designed to be fixed inside the cage and directed as desired.

CAMOUFLAGE SO_120

standard structure: cage, 5 spotlights, cables: black
struttura standard: gabbia, 5 faretti, cavi: neri

FLAS0120NMIX (MIX) METAL + GLASS

6 glass diffusers (2xclear, 2xamber, 2xsmoky grey)

FLAS0080NVT (GLASS)

8 glass diffusers (2 clear, 3 amber, 2 smoky grey)
8 diffusori in vetro (2 trasparenti, 3 ambra, 3 fumè)

Le lampade della collezione Camouflage sono composte da una struttura metallica a gabbia, che sostiene gli schermi decorativi e gli apparecchi illuminanti. Sono ampiamente personalizzabili, grazie alla possibilità di combinare a piacere gli elementi di serie, così come richiedere finiture e dimensioni alternative. Gli schermi decorativi sono disponibili in sei varianti tra metallo e vetro. I faretti GU10 sono direzionabili e predisposti per essere fissati all'interno della gabbia.
