

MOOLIN

RESPECT TRADITION, RETHINK DESIGN

100% handmade

An elegant floor lamp as a symbiosis of traditional Chinese craftsmanship and modern style – with MOOLIN, lasfera has created a timelessly beautiful lamp. The base and the lampshade are made by hand from bent bamboo poles that are shaped from a bamboo splint, thus the base of the floor lamp is connected with the lamp as a unit. The surfaces of the bamboo poles are oiled and thus free of chemical treatments.
