# Rings

Design by

Famiglia di lampade pensate per il contract e più in generale per installazioni importanti. Volevo dare all'interior designer o al cliente finale, la possibilità di "disegnare" forme e descrivere volumi scultorei in libertà e con grande leggerezza, fornendo loro degli anelli di luce, rigidi, ma eterei. Mi piaceva l'idea di prestare la mia progettualità, il mio design ad altri professionisti, creando un semplice alfabeto, fatto di differenti diametri, di traiettorie libere e di luce per poter comporre queste mie "lettere" con grande inventiva e creare installazioni di grande impatto.

A family of lamps designed for the contract and more generally for major installations. I wanted to give to the interior designers or to the end customers the chance to "draw" shapes and describe sculptural volumes freely, by providing rings of light that are stiff, but ethereal at the same time. I liked the idea of offering my project concept, my design to other professionals, creating a simple alphabet, made of different diameters and light-free path to be able to compose these "letters" with great inventiveness and create high-impact installations.
