ARMADA

Ispirata alle armature per il cemento armato, ARMADA con il suo groviglio visivo restituisce un senso di profondità interessante, con un rapporto tra vuoti e pieni tutto da scoprire. La ricerca di un equilibrio formale tra le maglie metalliche genera volumi che sembrano nascere da segni retti tracciati nello spazio. L'anima decorativa si unisce a quella funzionale. A luce spenta, è un oggetto d'arredo con una personalità forte ma versatile. A luce accesa, il telaio di metallo saldato che abbraccia il fascio di luce, riesce a creare un effetto luce-ombra e un'atmosfera affascinante.

Inspired by the rebar for the concrete, ARMADA visual tangle gives an exciting sense of depth, with its interplay of solid and voids. The search for a formal balance of the metal mesh generates volumes that seem to come from right signs traced in space. The decorative soul is combined with the functional one. When the light is switched off, it is a piece of furniture with a strong but adaptable personality. As soon as you turn on the light, the welded frame embracing the light creates playful shadows and a very cool atmosphere.
