RESPECT TRADITION, RETHINK DESIGN

# MOOLIN

*95% bambus / natural bamboo*

*100% handarbeit / handmade*

*100% einzigartig / unique design*

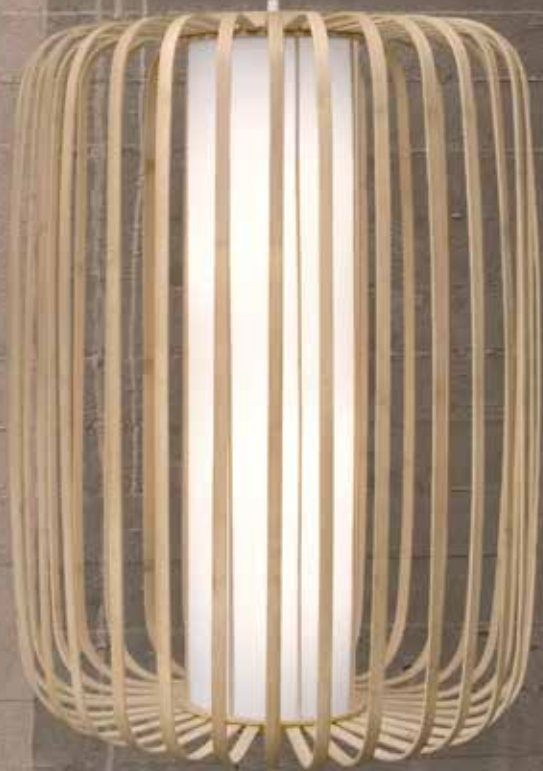

Eine elegante Stehleuchte als Symbiose aus traditioneller chinesischer Handwerkskunst und moderner Formsprache: Mit MOOLIN hat lasfera eine zeitlos schöne Lampe geschaffen. Fuß und Lampenschirm bestehen aus von Hand gebogenen Bambusstäben, die aus einem Bambus-Splint geformt sind. So verbindet sich der Fuß der Stehleuchte zu einer Einheit mit dem Leuchtojekt. Diese Konstruktion der Leuchte lässt so den sonst eher nebensächlichen Fuß zu einem zentralen Bestandteil werden. Die Oberfläche der Bambusstäbe ist geölt und somit frei von chemischen Behandlungen

*An elegant floor lamp as a symbiosis of traditional Chinese craftsmanship and modern style – with MOOLIN, lasfera has created a timelessly beautiful lamp. The base and the lampshade are made by hand from bent bamboo poles that are shaped from a bamboo splint, thus the base of the floor lamp is connected with the lamp as a unit. The surfaces of the bamboo poles are oiled and thus free of chemical treatments.*

MADE OF WOOD

# SOPHIE

100% holz / wood

100% einzigartig / unique

100% leichtbau / lightweight

**SOPHIE** die sympathische Furnierleuchten Kollektion.

Klassische Form, traditionelle Handwerkskunst und innovative Materialverwendung: **SOPHIE** ist ein leuchtendes Beispiel für die ganzheitliche Herangehensweise von lasfera beim Produktdesign. Schirm und Fuß werden aus flexiblen Furnierplatten gebildet. Das Besondere dabei: Die Platten bestehen aus drei Schichten – den beiden äußeren Furnierschichten aus unterschiedlichen, nach traditioneller handwerklicher Art geschälten Naturhölzern und einer mittleren Vliesschicht. Die Vliesschicht sorgt dafür, dass die Furnierschichten flexibel sind und trotz der Biegung nicht reißen oder brechen. Für die Furnierschichten stehen Naturhölzer wie Ahorn, Eiche oder Walnuss zur Wahl, welche je nach Vorliebe auch in verschiedenen Farbvariationen gestaltet werden können – somit wird jede Leuchte zu einer einzigartigen und persönlichen Skulptur für den Besitzer.

*Miss SOPHIE our sympathetic veneer lighting collection. Classic shape, traditional craftsmanship and innovative use of materials: SOPHIE is a shining example of lasfera's holistic approach of product design. The shade and foot are formed from natural flexible veneer plywood. The special feature: The plywood is made of three layers, two outer layers from different natural woods - that have been stripped using traditional methods - and an inner fleece layer. The fleece layer ensures that the veneer layers are flexible and do not tear or break while bending. For the veneer layers there is a selection of natural woods such as maple, oak or walnut to choose from, which can be combined according to the customer's preference in different color variations - that each lamp is an unique and personal sculpture for its owner.*

SLIDE

RESPECT TRADITION, RETHINK DESIGN

## SLIDE

bei unserer neuartigen Leuchten Kollektion SLIDE bleiben wir unserer Linie weiterhin treu, individualisierbare Leuchtenobjekte mit Höchstmaß an Funktion und Qualität zu entwickeln. Der Lampenschirm ruht auf einem von uns neu entwickelten Mechanismus und ist durch einfaches Anwinkeln in der Höhe verstellbar. Somit kann mit einem Handgriff die passende Höhe des Schirms eingestellt werden.

*With our new SLIDE collection of lamps, we have reaffirmed our loyalty to the principle of developing customisable lighting objects with the highest possible degree of function and quality. The shade is based on a mechanism developed in house, and a simple bending action is all it takes to adjust the height. In this way, the shade can be set to the right height with one single hand movement.*

## YUN - floating lamp

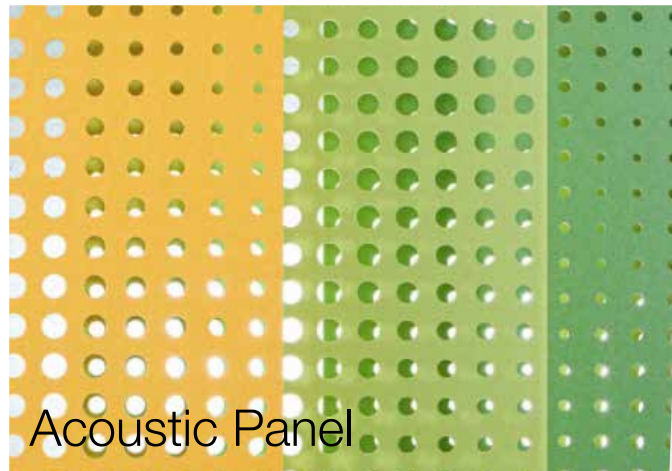

The table and floor lamp YUN adopts a classic lamp shape with the delicate legs providing an extraordinary lightness. The base of YUN consists of only three curved wooden legs carrying the round fabric-covered lampshade. As the wood will deform slightly in different climates.

lasfera developed a unique lamp fixture to keep the shade always balanced. The organic change of the natural material was taken up in the design - a supposed shortcoming became the core idea

CUBE PLANTED

RESPECT TRADITION, RETHINK DESIGN

What are your benefits of CUBE?

- ambient light for in & outdoor use
- staged greenery for privat or public spaces
- optional acoustics pannel installation
- green thumb maintenance due to long term watering technique and grow - LED
- customizable in clour and size

GREEN OFFICE

# CUBE PLANTED

*100% UNIQUE*

*100% LIGHT*

*100% ATMOSPHERE*

Unsere neuartige Kollektion PLANTED hebt Licht und Raumbegrünung auf eine noch nie dagewesene ästhetische Bühne:

- PLANTED verbindet den Nutzen der wohltuenden Wirkung der Grünpflanze mit einer stimmungsvollem Raum- oder Funktionsbeleuchtung.
- eine ausgeklügelte LED-Technik ermöglicht es, das System PLANTED unabhängig vom Tageslicht im Raum zu positionieren. Die Pflanze erhält dadurch eine funktionale Wachstumsbeleuchtung oder kann als atmosphärische Beleuchtung im Garten genutzt werden.
- Die ausgewählten Formen der Leuchten und die Auswahl an Größen und Materialien ermöglichen einen unabhängigen Einsatz im Innen- und Außenbereich.

Zurzeit umfasst die Kollektion PLANTED die Leuchte SOPHIE und CUBE in verschiedenen Größen.

*Our new PLANTED collection raises light and interior plant arrangements to an unprecedented aesthetic level.*

- *PLANTED combines the beneficial effects of green plants with an atmospheric space or functional lighting.*
- *Ingenious LED technology allows the PLANTED system to position the plant in a room regardless of daylight, to provide functional growth lighting, or to provide atmospheric lighting in the garden.*
- *The chosen concept for the lights and a selection of sizes and materials enables independent use with applications and stems both inside and outside.*

*Currently, the PLANTED collection includes various sizes of the SOPHIE and CUBE lights.*
